

SCHWEIZERISCHE VEREINIGUNG FÜR TIERWISSENSCHAFTEN  
Association Suisse pour les Sciences Animales  
Swiss Association for Animal Sciences

**Swiss Animal Breeding Technology Platform (SABRE-TP)  
Workshop 2022**

***Feed efficiency: strategies of recording phenotypes  
and their (non-)genetic applications in cattle and pigs***

**Wednesday 8th June 2022  
09:00 – 16:00  
(live presentations only)**

**ETH Zürich, LFW B 1 – lecture room (maximum attendance 82)**

**Program**

<b>Time</b>	<b>Title</b>	<b>Who</b>
09:00	<b>Welcome, Program</b>	Franz Seefried
09:15	- <b>CFIT – Cattle Feed InTake – a 3D camera based system to measure individual feed intake and predict body weight in commercial farms</b>	Jan Lassen, VikingGenetics, Invited talk
10:45	<b>Coffee Break</b>	
11:15	- <b>An international collaboration to improve feed efficiency in dairy cattle: The Resilient Dairy Genome Project</b>	Adrien Butty, Qualitas
12:00	<b>Lunch</b>	
13:00	- <b>Building a two-lactation model for feed efficiency in dairy cattle</b>	Patrick Stratz, Qualitas
13:45	- <b>Selection for feed efficiency in pigs in Switzerland: achievements and outlook</b>	Andreas Hofer, Suisag
14:30	<b>Coffee Break</b>	
15:00	- <b>Protein efficiency in pigs: from phenotyping to estimating genetic parameters and beyond</b>	Claudia Kasper, Agroscope
15:45	<b>End of Workshop</b>	Franz Seefried
